NEXT MEETINGS: Wednesday, Oct. 21 and Wednesday, Nov. 18.

NOT ON THE AGENDA?

If you have items for the agenda, or topics that you would like to see discussed in more detail or as the subject of a special presentation, please see one of the committee chairs or contact MCCV Executive Director Jan Ennenga at jan@mccv.org or (209) 523-0886

AGENDA & HANDOUTS WILL BE POSTED TO OUR WEBSITE WWW.MCCV.ORG

**CALIFORNIA DEPARTMENT OF PESTICIDE REGULATION
CALIFORNIA AIR RESOURCES BOARD**

**NOTICE OF PUBLIC MEETING TO DISCUSS ACTIONS TO REDUCE
OZONE-FORMING PESTICIDE EMISSIONS IN THE SAN JOAQUIN VALLEY**

The Department of Pesticide Regulation (DPR) and the Air Resources Board (ARB) will hold a public meeting at the location identified below to discuss California's efforts to reduce ozone forming volatile organic compounds (VOCs) from pesticides in the San Joaquin Valley. The meeting will provide the public with an opportunity to learn about DPR's recent actions to reduce pesticide VOC emissions from fumigant use and to explore future opportunities to reduce pesticide VOC emissions. ARB and DPR staff will make brief presentations. The majority of the meeting is devoted to public comment and discussion. DPR Director Mary-Ann Warmerdam, ARB Member Dorene D'Adamo, and ARB Executive Officer James Goldstene will lead the discussion. Spanish interpretation will be available.

DATE: September 28, 2009

TIME: 5:00 p.m. to 7:00 p.m.

LOCATION: Harvest Hall
Stanislaus County Agricultural
Commissioner's Office
3800 Cornucopia Way
Modesto

Volatile organic compounds are gases that can combine with emissions of nitrogen oxides (NO_x) in the presence of sunlight to form ozone or smog. Under the federal Clean Air Act (Act), each state must specify how it will reduce smog-producing emissions, detailing these measures in a federally-approved State Implementation Plan (SIP). Agricultural and structural pesticide use is among many contributors of smog-forming VOC emissions in the San Joaquin Valley. DPR is the California agency responsible for regulating pesticides, including the development and implementation of strategies to reduce VOC emissions from pesticides. ARB has the overall responsibility for ensuring federal Clean Air Act requirements are met.

DPR has a well-established program for regulating the use of agricultural and structural pesticides. In California's 1994 SIP for the 1-hour ozone standard, DPR committed to reduce pesticide VOC emissions in various federal nonattainment areas, including the San Joaquin Valley. To address the more health-protective federal 8-hour ozone standard, DPR established a not-to-exceed pesticide VOC emission limit of 18.1 tons per day for the San Joaquin Valley, implemented regulations prohibiting the use of high-emitting fumigant application methods, and committed to reduce pesticide VOC emissions from non-fumigant pesticide

products. Together, these commitments and regulations make up California's revised pesticide SIP.

This meeting will provide the public with an opportunity to learn about these regulatory efforts to reduce pesticide emissions and the associated SIP revisions. There will also be discussion of DPR plans to evaluate the potential for additional emission reductions from non-fumigant pesticides in the San Joaquin Valley.

Participation by the DPR Director will provide the public with an opportunity to comment directly on actions to reduce pesticide VOC emissions. ARB's participation will ensure that the ARB hears public comment on DPR actions related to the SIP prior to administrative action on the DPR SIP revision.

For more information on DPR's program to reduce pesticide VOCs, go to www.cdpr.ca.gov, and click on the "Air" Quick Finder link, then on "Volatile Organic Compound Emissions."

Public Workshop to Discuss the Air Resources Board's Enforcement Program

The Air Resources Board (ARB) invites you to participate in a workshop to discuss ARB enforcement policy in a public forum. ARB is interested in exploring ways to achieve higher levels of compliance, expedite settlements, prioritize actions, eliminate economic advantage from violations, ensure consistent enforcement results, serve environmental justice communities, encourage voluntary compliance, increase access to ARB's administrative hearing process, and communicate the goals of ARB's enforcement program. ARB is also interested in discussing strict liability for violations, model penalty policies, and ways to increase opportunities for public access, outreach, compliance assistance, and training.

The Workshop Will Be Held at the Following Location:

DATE: Monday, October 12, 2009
TIME: 1:00 to 5:00 p.m.
PLACE: Cal/EPA Headquarters Building
Byron Sher Auditorium, 2nd Floor
1001 I Street
Sacramento, CA 95814

Meeting Materials

The materials for this workshop will be posted prior to the workshop at ARB's website <http://www.arb.ca.gov/enf/meetings/meetings.htm>.

If You Cannot Attend this Meeting

The meeting will be webcast, and viewers can e-mail written comments or questions during the session to auditorium@calepa.ca.gov. Webcast links are posted at <http://www.calepa.ca.gov/broadcast/?BDO=1>. ARB recommends that you do not run other programs while viewing the webcast, as it may interrupt or lower the quality of the signal.

Directions to the California Environmental Protection Agency (Cal/EPA)

There are many ways to arrive at the Cal/EPA Headquarters Building, but we encourage you to take public transportation or drive low-emission/high-efficiency vehicles whenever possible. Use the following link for directions and information on public transit: <http://www.calepa.ca.gov/EPA/bldg/location.htm>.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

California Environmental Protection Agency

Special Accommodations or Language Assistance

If you require a special accommodation or need this document in an alternate format or language, please contact Ms. Barbara Gregson at (916) 322-6033 or bgregson@arb.ca.gov as soon as possible, but no later than 10 business days before the scheduled event/meeting. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

We Value Your Input

We welcome and encourage your participation in this effort. If you have questions regarding the workshop or ARB's enforcement program, please contact the Enforcement Division at (916) 322-7061 or Mr. Paul Jacobs at pjacobs@arb.ca.gov (mobile source enforcement), Mr. Mark Stover at mstover@arb.ca.gov (fuels/cargo tanks, consumer products, and greenhouse gas enforcement), or Ms. Mary Boyer at mboyer@arb.ca.gov (compliance assistance and training).

Sincerely,

/s/

James R. Ryden, Chief
Enforcement Division
